

Final Event UrbanSmartPark

9 December 2020 at Hotel Hafen Hamburg

Automated On-Street Parking – Technical Feasibility and Innovative Services

The consortium of UrbanSmartPark researched during the year 2020 on the **parking environment of the future**. The research results will be shared with the public on our final event:

Implementation of **automated valet parking**, development of a services platform, **services conceptualization**, **customer experience** assessment, verification and validation

Live demonstration of automated on-street parking in the harbour area of Hamburg
